## EDUCATION

**Bachelor of Science, Software Development**

Champlain College, 2019 - 2023

GPA: 3.2/4.0

Dean's List for 2 terms

## WORK EXPERIENCE

**Altra Federal Credit Union | Software Developer Intern**

Jun 2022 - May 2023 | Onalaska, Wisconsin, US

- Enhanced and sustained legacy applications utilizing HTML, CSS, JavaScript, C#, and SQL, originally created by prior developers.
- Executed SQL queries to modify company database data as per requirements.
- Contributed to the development and execution of project plans, including time estimates and resource allocation.
- Coordinated with cross-functional teams, such as project managers and management, to ensure seamless integration of developed solutions into existing systems.

**Altra Federal Credit Union | Member Relations Specialist**

Jan 2020 - Jun 2022 | Winona, Minnesota, US

- Delivered exceptional customer service, consistently exceeding member expectations.
- Addressed inquiries related to account information and provided accurate, timely responses.
- Offered outstanding technical assistance to members, ensuring seamless use of technology and services.

**Altra Federal Credit Union | Teller**

Nov 2018 - Jan 2020 | Winona, Minnesota, US

- Accurately documented totals for various cash dispensers, coin machines.
- Assisted in identifying and recording teller overages and shortages, helping to maintain overall accuracy and accountability.
- Contributed to the training and onboarding of new tellers, ensuring smooth integration into the team.

## PROJECTS

**Task Handler | Sole Developer**

- I developed a task management iOS app, utilizing CoreData, UserDefaults, and multiple features, along with Firebase integration. This efficient and user-friendly app, now published on the App Store, offers a seamless way for users to effectively manage their tasks.
- Built with Swift, SwiftUI

**Stocks App | Sole Developer**

- Developed a user-friendly stocks app that showcases cryptocurrency data, leveraging a reliable API for accurate and up-to-date information.
- Implemented an intuitive and visually appealing UI, ensuring seamless navigation and a positive user experience.
- Built with Swift, SwiftUI, CoinGecko API.

## SKILLS

**Programming Languages**

- Proficient in: Swift, JavaScript, HTML5, CSS
- Working knowledge of: C#, MySQL

**Technologies**

Xcode, Keychain, Firebase, React, NextJS, NodeJS, Tailwind, Blazor, Git
